## Conference on Gender-Based Violence

10<sup>th</sup> and 11<sup>th</sup> November 2020

Join in over two days and four themed sessions in an online conference on gender-based violence (GBV).

The conference is organized by the project Preventing Gender-Based Violence – the Youth's Outlook, co-funded by the European Union's Rights, Equality and Citizenship Programme (REC 2014-2020) and implemented by Interarts and Trabe (Spain), Transcena (Romania) and Kvindemuseet i Danmark (Denmark).

Started in September 2018, the project seeks to contribute to the prevention of GBV by improving the awareness of young people about all forms of GBV, its causes, consequences and providing tools to prevent, recognize and counter it in Denmark, Romania and Spain. The beneficiaries of the project are young students, aged 15 to 18, school staff, such as teachers, counsellors and school managers and parents.

This conference wants to present the results of the project and the outputs developed to allow other organizations replicating the same methodologies. Each of the four sessions offer exciting presentations from keynote speakers. Participants can choose which sessions to sign up for and will be able to join in the conversation with follow up questions in a moderated Q&A-session with the presenters.

Everyone is welcome!
